- **NPTEL:** Computer Networks and Internet Protocol; Elite.
- **HackerRank:** JavaScript (Intermediate).
- **HackerRank:** Frontend Developer (React).

Achievements

- **First Prize:** NEXUS AI Hackathon, MITS Kochi.

Profile

Computer Science undergraduate with practical experience in full-stack and backend development. Built a production SaaS training marketplace serving approximately 10,000 monthly users. Contributed to CRM and LMS systems using ASP.NET Core 10, Clean Architecture, and SQL Server. Experienced in API design, payment integration, and cloud deployment.

Experience

InfoCreon Solutions Private Limited *Kochi, India*
Full-Stack Developer Intern Apr 2026 – Sep 2026

- Contributed to 2 enterprise systems, a CRM and an LMS, built from scratch with ASP.NET Core 10, Clean Architecture, and SQL Server.
- Designed REST APIs and business logic that digitised academic and administrative workflows within the CRM.
- Integrated Open edX and other open-source LMS platforms through APIs and supported Microsoft Azure deployment.

Freelance Development *Remote*
Full-Stack Web Developer 2021 – Present

- Deliver end-to-end web applications, from requirements analysis and database design to implementation and deployment.
- Maintain BookMyTraining, a production SaaS marketplace supporting approximately 10,000 monthly users.

Projects

BookMyTraining – SaaS Training Marketplace

Next.js, Express.js, PostgreSQL, WhatsApp Cloud API

- Built a marketplace for programme discovery, bookings, trainer listings, online payments, and digital tickets.
- Integrated QR-code ticket validation, WhatsApp notifications, and Cloudflare bot protection; deployed on a Hostinger VPS.

CampusForge Engine – Hiring Intelligence

Next.js, Flask, PostgreSQL, Redis, Docker, scikit-learn

- Engineered resume parsing, skill extraction, TF-IDF job matching, and weighted candidate scoring.
- Added Redis caching, asynchronous processing, WebSocket collaboration, and Docker deployment.

MITS Print – Online Printing System

Next.js, PostgreSQL, Prisma, Razorpay, Python

- Connected authentication, Razorpay payments, order tracking, and PDF processing for print-ready documents.

Code2PDF – Real-Time C Compiler

Python, Flask, WebSockets

- Developed a platform to compile and execute C programs, stream terminal output, and generate formatted PDFs.

Hostel Room Allotment System

Java, Java Swing, SQLite

- Designed a desktop application that allocates rooms using student preferences, academic year, and availability, with SQLite storage.

MITS Super League

Web Development

- Launched a football tournament platform displaying points tables, tournament statistics, and competition standings.
